

STUDENT SUCCESS STORY

My name is *Kirthika*, and I was born into a lower-middle-class family. **I have vivid memories of my parents struggling hard to make ends meet. During my early school days, they couldn't afford to pay for my fees, books, or transportation.** However, after completing my tenth grade, my life took a significant turn when my primary school headmistress introduced me to LIFT in 2008. Joining LIFT was a life-changing event for me.

After joining LIFT, I never had to worry about fees, stationery, coaching classes, project expenses, or anything else. **Thanks to the support of LIFT, I was able to complete my degree with distinction in Electronics and Communication Engineering, something I had never dreamed of during my school days. The assistance provided by LIFT made all the difference in my academic journey.**

During my final year of college, I got placed into one of the leading IT firms in India, Infosys Limited. Currently, I am working as an Application Development Specialist at Accenture Solutions Private Limited, with a total of 8 years of experience in the IT industry.

Currently, I am taking care of my parents and supporting my brother's education. Additionally, I provide financial support to my husband. It's fulfilling to be able to contribute positively to my family's well-being.

I am committed to offering financial help to orphanages and old age homes around my area whenever possible. Giving back to society is important to me, and I am grateful for the support I received from LIFT. In the future, I hope to find the best possible ways to give back to both society and LIFT, ensuring that others can also benefit from the same opportunities that have shaped my life positively.

Thanks to my sponsors, mentors, friends from LIFT. Because of you, I am Who I am today!!

Giving back, paying forward, to our community and others is a cornerstone of the LIFT program.
